Would your company be willing to support the Asheville soccer community?

The Asheville Wizards Football Club (AWFC) is a community of individuals and their families brought together by a common interest and love for the game of soccer. The Wizards team was founded in 1998 and over the years has grown into a dues-based organization which currently includes three teams and roughly 60 player-members. AWFC fields all three teams during the local Asheville-Buncombe Amateur Soccer Association's (ABASA) Spring and Fall seasons and regularly participates in "off-season" playing opportunities as well, including year-round indoor soccer and short-sided play during the summer. We have had the fortunate success of bringing at least one team to the league championship in the last 10 seasons. We invite you to partner with us in promoting and maintaining a positive force in the local sports community. Your contribution will offset club expenses, which include sponsored events, player registration, uniforms, equipment (balls, bags, etc.), tournament registration, member recognition, and club T-shirts.

AWFC members range in age from 19 to 60 years old and fill a number of roles in the community including physicians, building contractors, and local business owners. The Club strives to set itself apart from other local sports teams through things such as sponsored events, club T-shirts, and board members. AWFC is also the only local soccer team/club to maintain its own website, www.ashevillewizards.org. By partnering with AWFC, your organization will not only become a club-preferred service provider in your industry, it will also become known to the local soccer community as a whole. In addition to this advertising benefit, your partnership will also assist in the continued growth and success of our local soccer community.

We will recognize our 2008 partners through at least three events and promote their business through a variety of means depending on the level of commitment. Please see the enclosed packet for details about the various levels of partnership and the benefits associated with each of them.

Thank you for your time and consideration.

Regards,
